## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed November 29, 2004 have been fully considered but they are not persuasive.

The Applicant's reply to Office Action dated September 27, 2004 regarding 35 USC 102(e) rejection based on Jaszczak et al (US 6,629,469) is non-responsive. The Applicant addressed intent to file an affidavit under 37 CFR 1.131 to overcome Jaszczak et al reference, however, the Applicant failed to do so. The Applicant is reminded that the burden to overcome Jaszczak et al reference is on the Applicant.

In addition, the Applicant is also reminded that the content of the Jaszczak et al's patent (US 6,629,469) may be obtained in accordance with 37 CFR 1.14(a)(1)(i) as follows:  
37 CFR 1.14. Patent applications preserved in confidence.

(a) Confidentiality of patent application information. Patent applications that have not been published under 35 U.S.C. 122(b) are generally preserved in confidence pursuant to 35 U.S.C. 122(a). Information concerning the filing, pendency, or subject matter of an application for patent, including status information, and access to the application, will only be given to the public as set forth in § 1.11 or in this section.

(1) Records associated with patent applications (see paragraph (g) for international applications) may be available in the following situations:

(i) Patented applications and statutory invention registrations. The file of an application that has issued as a patent or published as a statutory invention registration is available to the public as set forth in § 1.11(a). A copy of the patent application-as-filed, the file
